## DBQ Answers: What Caused Secession? A Comprehensive Guide

The DBQ (Document-Based Question) is a staple of AP History exams. It tests your ability to analyze historical documents and synthesize them into a persuasive essay. One common DBQ theme focuses on the causes of secession, particularly the secession of Southern states from the United States in 1860-1861. This guide provides a comprehensive overview of how to tackle this type of DBQ, ensuring you develop a strong, well-supported argument.

### Understanding the Question

The first step to a successful DBQ is comprehending the prompt. The question will usually ask you to analyze multiple perspectives on the causes of secession. Common themes include:

- *Economic factors*: Did economic differences, particularly over tariffs and slavery's role in the economy, drive the South's decision?
- *Political factors*: Did the election of Abraham Lincoln, a Republican opposed to the expansion of

slavery, trigger secession? • Social and cultural factors: Did differing views on slavery's morality and the role of states' rights play a significant role in the South's separation? It's essential to identify the *specific focus* of the question. Are you asked to analyze the **primary causes**, or to **compare and contrast** different perspectives? Understanding the prompt's demands will help you shape your argument effectively.

## Step-by-Step Instructions

1. **Analyze the Documents**: Read each document carefully, highlighting key points and noting any biases. Consider the following: • **Author**: Who wrote the document? What is their perspective on the issue? • Audience: Who was the document intended for? How might this influence its message? • **Purpose**: Why was this document created? What was the author trying to achieve? • **Evidence**: What evidence does the document provide to support its claims? • **Point of View**: How does the author's perspective influence their interpretation of events?

2. *Group the Documents*: Categorize the documents based on their common themes or perspectives. This will help you identify patterns and develop your thesis statement. For example, you might group documents discussing economic causes, political causes, and social and cultural causes of secession.

3. **Develop Your Thesis Statement**: The thesis is the heart of your essay. It should be a clear, concise statement that answers the prompt and presents your argument. It should be supported by evidence from the documents. For example: • **Thesis focusing on economic factors**: "While the election of Lincoln played a role, the primary cause of Southern secession was the economic

conflict over tariffs and slavery's role in the Southern economy." • *Thesis focusing on political factors*: "The South's decision to secede was primarily driven by the perceived threat to their political power posed by the election of Abraham Lincoln, a Republican opposed to the expansion of slavery." • **Thesis focusing on social and cultural factors**:

"Southern secession was not only a political decision but also a cultural and moral one, fueled by deeply held beliefs about states' rights and the sanctity of slavery." 4. **Craft a** Organize your essay with a clear , body paragraphs, and conclusion. •

*\*\* Introduce the topic, briefly summarize the context of secession, and state your thesis. • Body Paragraphs: Each paragraph should focus on a single theme or argument, using specific evidence from the documents. Make sure to connect the evidence to your thesis and analyze the document's point of view. • Conclusion: **Reiterate your thesis, summarize your main points, and offer a final reflection on the significance of secession.***

**5. Evidence and Analysis: Use evidence from the documents to support your claims.**

**Don't simply quote the documents; instead, paraphrase and analyze them. Explain how the evidence supports your argument and connects to your thesis. • Example:**

Instead of writing "Document 3 states that 'Southern states were justified in seceding because of Lincoln's election'", you could say "Document 3, a speech delivered by a South Carolina politician, emphasizes the perceived threat posed by Lincoln's election, arguing that it undermined the South's political rights and justified secession."

**6. Outside Information:** You can use your knowledge of the historical context to provide additional information and support your argument. However, it's crucial to focus on the documents as

the primary evidence. 7. Synthesis: **Go beyond simply summarizing the documents. Connect your analysis to broader historical themes, showing how secession impacted the course of U.S. history.**

## Best Practices

- Understand your Audience: **Remember the DBQ is written for an examiner who expects strong analytical skills. Don't assume the examiner already knows the material; clearly explain your arguments.**
- Use Strong Transitions: Ensure your essay flows smoothly by connecting ideas with transition phrases (e.g., "Moreover," "However," "In contrast").
- Stay Focused: **Don't go off on tangents. Keep your arguments relevant to the prompt and your thesis.**
- Proofread Carefully: *Mistakes in grammar, spelling, and punctuation can negatively impact your score.*

## Common Pitfalls to Avoid

- Ignoring the Documents: The DBQ is a document-based question. Your essay should be anchored in the provided documents, not solely based on your prior knowledge.
- Oversimplification: Don't reduce complex historical events to simple explanations. Show the complexity of the causes of secession.
- Bias: **Be aware of potential biases in the documents and how they might influence the author's perspective. Analyze the bias, but don't let it cloud your own judgment.**
- Lack of Synthesis: Going beyond simply summarizing the documents is essential. Connect your analysis to broader historical themes and explain the

significance of secession.

## Summary

Answering a DBQ on the causes of secession requires careful analysis of historical documents, a well-structured argument, and a strong understanding of the historical context. By following the steps outlined above, you can craft a persuasive and well-supported essay that demonstrates your analytical skills and historical knowledge.

## FAQs

1. How many documents are usually included in a DBQ on secession? **The number of documents varies, but typically there are 7-10 documents, each offering a different perspective on the causes of secession.** 2. Can I use outside information in my DBQ? **You can use your knowledge of the historical context to provide additional information, but the primary focus should be on the documents.** 3. How much time should I spend on each step? **Allocate your time wisely. Spend approximately 15 minutes reading and analyzing the documents, 10 minutes grouping them, and 5 minutes crafting your thesis. The rest of the time should be spent writing your essay.** 4. How important is the introduction and conclusion? **The introduction and conclusion are crucial. The introduction sets the stage and establishes your thesis, while the conclusion reiterates your argument and offers a final reflection.** 5. What is the best way to practice writing DBQs? **Practice makes perfect. Use past DBQ prompts from AP History exams to**

hone your skills. Focus on analyzing the documents, developing a strong thesis, and constructing a well-structured essay. You can also ask your teacher or a tutor for feedback on your writing.

## **Unpacking the DBQ: What Truly Caused Secession?**

The question of "what caused secession" is a cornerstone of American history, a pivotal moment that tore a nation apart and reshaped its very identity. When you encounter this question, especially in a Document-Based Question (DBQ) essay for a history class, it's not just about memorizing dates and names. It's about understanding the complex web of factors that led thirteen Southern states to declare their independence from the Union. This isn't a simple "either/or" scenario; the causes of secession were multifaceted, deeply rooted, and fiercely debated then, as they are now.

## **The Centrality of Slavery: The Elephant in the Room**

Let's be clear from the outset: while a multitude of factors contributed to secession, the institution of slavery stands as the undeniable, central cause. This isn't just an opinion; it's a conclusion supported by overwhelming historical evidence, including the very documents you'd find in a DBQ. The Southern states didn't secede over abstract ideals of states' rights divorced from their primary economic and social

structure. They seceded to protect and perpetuate the system of chattel slavery.

Southern leaders and citizens repeatedly articulated their fears about the future of slavery. The election of Abraham Lincoln in 1860 was the immediate catalyst, not because he intended to abolish slavery where it existed (at least not initially), but because his Republican Party platform opposed its expansion into new territories. For the South, this was seen as a direct threat to their way of life, their economic prosperity, and their political power. The argument was that if slavery couldn't expand, it would eventually be contained, weakened, and ultimately doomed. This fear, however exaggerated in its immediate implications, was a powerful motivator.

## **Economic Motivations: The Intertwined Fate of Cotton and Chains**

It's impossible to discuss secession without acknowledging the profound economic underpinnings of the South. The Southern economy was overwhelmingly agrarian, with its wealth and production heavily reliant on the cultivation of cash crops, primarily cotton. And who was the labor force that made this lucrative system possible? Enslaved people.

The economic system of the South was inextricably linked to slavery. The profits generated from cotton, a product in high demand globally, fueled the wealth of Southern planters. They viewed their enslaved laborers not just as a workforce but as valuable property, an investment that generated significant

returns. The prospect of losing this "property" was a devastating economic blow, both for individual planters and for the Southern economy as a whole.

Beyond the direct ownership of enslaved people, the economic structure of the South was built around this labor system. It dictated land use, shaped social hierarchies, and influenced political priorities. Any threat to slavery was perceived as a threat to the entire economic edifice of the Southern states. While some might argue for free trade or protective tariffs as secessionist motivators, these were often secondary to the overriding concern for the protection of the slave economy.

## **Political Power and the Balance of Power: A Zero-Sum Game**

The expansion of the United States into new territories became a constant source of tension throughout the antebellum period. Each new state admitted to the Union threatened to upset the delicate balance of power between free states and slave states in Congress, particularly in the Senate. Southern states feared that if they lost parity in the Senate, they would be outnumbered and unable to protect their interests, which were, of course, centered on the preservation of slavery.

This fear of political marginalization manifested in numerous compromises and conflicts. The Missouri Compromise, the Compromise of 1850, and the Kansas-Nebraska Act were all attempts to navigate this contentious issue. However, these compromises ultimately failed to resolve the fundamental

disagreement over the morality and legality of slavery in the territories. The Dred Scott decision, while a victory for pro-slavery forces, also inflamed abolitionist sentiment and further polarized the nation.

When Lincoln, a Republican, was elected without a single electoral vote from the Deep South, it signaled to many Southerners that their political influence had waned to a critical point. They believed their voice was no longer heard or respected in the national political arena, and that the federal government was increasingly falling under the sway of anti-slavery forces. This sense of political disenfranchisement, rooted in the fear of losing control over the future of slavery, was a significant driver of secession.

## **States' Rights: The Double-Edged Sword**

The concept of "states' rights" is often invoked as a primary cause of secession. And indeed, it was a deeply held belief for many Southerners. However, it's crucial to understand that in the context of secession, states' rights were overwhelmingly championed as the \*right of states to determine the legality and continuation of slavery within their borders and to take their "property" (enslaved people) into federal territories.\*

Southern states argued that the federal government was overstepping its constitutional boundaries by attempting to regulate or restrict slavery. They invoked the Tenth Amendment, asserting that powers not delegated to the federal government were reserved to the states. However,

this argument was selectively applied. When it suited their interests, Southern politicians were often quite willing to use federal power to protect slavery, such as through the Fugitive Slave Act, which mandated the return of escaped enslaved people to their owners, even in free states.

Therefore, while states' rights were a legitimate philosophical and political concept, they became a convenient justification for defending slavery. The secessionist states weren't advocating for an abstract principle of decentralization; they were asserting their right to govern themselves in a way that preserved their slaveholding society. The documents in a DBQ would likely reveal how this argument was used to frame the secessionist cause, often downplaying the direct role of slavery itself.

## **Cultural Differences and Social Hierarchies: A Divide Widens**

Beyond economics and politics, there were also growing cultural and social divergences between the North and the South. The North was increasingly industrialized and urbanized, with a growing immigrant population and a burgeoning middle class. Its society was more dynamic and, for some, more fluid.

The South, on the other hand, remained largely agrarian, with a rigid social hierarchy dominated by a wealthy planter class. This aristocracy's status and power were directly tied to their ownership of enslaved people. The cultural narrative of the South often romanticized a pastoral, paternalistic vision of

master-slave relations, a stark contrast to the emerging industrial and egalitarian ideals of the North.

These differing societal structures and values created a growing sense of mutual misunderstanding and animosity. Abolitionist movements in the North condemned slavery as a moral abomination, while many in the South viewed these critiques as an attack on their civilization and their honor. This cultural divide, though perhaps not a direct cause of secession in the same way as slavery itself, certainly contributed to the hardening of positions and the eventual breakdown of national unity.

## **The Immediate Trigger: Lincoln's Election**

As mentioned earlier, the election of Abraham Lincoln in November 1860 was the immediate spark that ignited the secessionist fire. Lincoln was the candidate of the Republican Party, a party explicitly opposed to the expansion of slavery into new territories. While Lincoln himself was not an abolitionist at the time, his election was interpreted by Southern states as a definitive signal that the federal government would no longer accommodate their interests regarding slavery.

South Carolina, followed by ten other states, seceded in the months following Lincoln's election. Their declarations of secession often explicitly cited the election of a president whose party was "hostile to slavery" and the perceived threat to their "domestic institutions." The documents in a DBQ

would almost certainly feature excerpts from these secession declarations, highlighting their pronouncements on slavery and states' rights.

## **Crafting Your DBQ Answer: Synthesizing the Evidence**

When you're faced with a DBQ on secession, remember that a strong answer requires more than just listing causes. You need to synthesize the information presented in the documents, identify connections between them, and construct a coherent argument.

1. **Identify the Core Issue:** Always start by acknowledging the centrality of slavery. Even if some documents focus on states' rights or economic grievances, trace these back to their connection to the institution of slavery.
2. **Analyze the Documents:** Carefully read each document. Who wrote it? When was it written? What is its purpose? What biases might it have?
3. **Categorize and Connect:** Group similar points from different documents. For example, find documents that discuss economic motivations, political anxieties, or the defense of slavery. Look for how these categories overlap and influence each other.
4. **Acknowledge Nuance:** While slavery is the primary cause, don't shy away from discussing the other contributing factors, such as states' rights and economic concerns, and explain how they are interwoven with the issue of slavery.
5. **Formulate a Thesis Statement:** Your thesis should

clearly state your argument about what caused secession, prioritizing the most significant factors. A good thesis might read something like: "While economic concerns and debates over states' rights played significant roles, the fundamental and overarching cause of secession was the Southern states' desire to protect and perpetuate the institution of chattel slavery."

6. **Support with Evidence:** Back up every point in your essay with specific evidence from the provided documents.

Understanding "what caused secession" is a journey into the heart of a pivotal moment in American history. It's about recognizing that the echoes of this period continue to shape our understanding of race, rights, and the very fabric of the nation. By delving into the documents and analyzing the complex interplay of factors, you can develop a comprehensive and insightful answer that truly captures the essence of why the United States fractured in 1861.

## **The Deep Roots of Secession: Understanding What Drove the Southern States to Leave the Union**

Secession was not a sudden or impulsive decision but the culmination of decades of escalating political, economic, and cultural tensions rooted in the institution of slavery and divergent regional identities. At its core, the southern

decision to secede stemmed from a profound fear that the federal government would overrule state sovereignty—particularly regarding the preservation and expansion of slavery, which southern economies and social structures depended upon. The debate over secession reveals much about the clash between regional autonomy and national unity during a turbulent period in American history.

## **The Ideological Foundations of Secession**

For many southern leaders and citizens, the federal union was not an indivisible entity but a compact of sovereign states, each with the right to interpret and uphold its own constitutional principles. This interpretation was deeply tied to the defense of slavery, which they viewed not merely as an economic system but as a way of life. The rise of abolitionist movements in the North, coupled with growing sectional polarization, intensified Southern anxieties. Southern politicians argued that federal restrictions on slavery—whether through legislation, judicial rulings, or rising moral opposition—threatened their fundamental rights and way of life. This conviction transformed political disagreement into a perceived existential threat, making secession seem not only justified but necessary.

## **Economic and Social Dimensions Underlying Secession**

Beyond ideology, economic interests played a decisive role in

fueling secession. The South's agrarian economy relied heavily on enslaved labor to maintain profitability, particularly in cotton and tobacco production. As the North industrialized and embraced wage labor, sectional differences widened, with southern elites fearing that federal policies would undermine their wealth and political influence. The election of Abraham Lincoln in 1860, seen as a representative of anti-slavery expansion sentiment, served as the catalyst: his victory signaled a shift in national power that southern states interpreted as a direct challenge to their sovereignty. In their view, secession was the only viable path to protect their economic foundations and social order.

## **Applications and Lessons for Modern Governance**

Understanding what caused secession offers vital lessons for contemporary political discourse and national cohesion. The southern secession crisis underscores the dangers of treating federalism as a battleground of zero-sum conflict rather than a framework for negotiated compromise. It highlights how deeply entrenched economic and cultural divisions, when ignored or exacerbated, can lead to existential political ruptures. Today, policymakers and scholars draw on this history to emphasize the importance of inclusive dialogue, respect for regional diversity, and balanced governance that safeguards both liberty and unity. The secession debate remains a cautionary tale about the fragility of national consensus.

## **The Enduring Historical Legacy**

The causes of secession are not merely a chapter in the past but a mirror reflecting ongoing tensions between state and federal power, individual rights and collective identity. By examining the motivations behind southern secession with nuance and depth, we gain insight into the complex forces that shape national destiny. More importantly, it challenges us to confront how historical grievances continue to influence modern political divides. Recognizing the human and structural dimensions of secession helps us build more resilient, empathetic societies capable of navigating difference without fracturing under pressure.

## **Unraveling the Threads of Division: What Caused Secession? A Deep Dive into the DBQ**

The American Civil War, a cataclysmic event that reshaped the nation, did not erupt spontaneously. It was the culmination of decades of simmering tensions, fundamental disagreements, and ultimately, a profound breakdown in the Union. At the heart of this cataclysm lay the issue of secession – the withdrawal of Southern states from the United States. Understanding the causes of secession is crucial to comprehending American history, and often, this understanding is tested through the rigorous framework of a Document-Based Question (DBQ). This article delves into the

complex web of factors that propelled Southern states to declare their independence, drawing upon the analytical approach characteristic of a DBQ to dissect the multifaceted origins of this momentous decision. The term "DBQ" itself signifies a specific type of historical essay, requiring students to synthesize information from a collection of primary and secondary source documents to construct a well-supported argument. Therefore, when we discuss "DBQ answers what caused secession," we are not simply listing grievances, but rather exploring how historians and students alike interpret the evidence to identify the primary drivers of this historical turning point.

## **The Elephant in the Room: Slavery as the Central Tenet**

It is impossible to discuss the causes of secession without confronting the pervasive and undeniably central role of slavery. While abolitionist sentiment grew in the North, the Southern economy and social structure were inextricably tied to the institution of chattel slavery. This fundamental divergence in economic and social systems created an unbridgeable chasm.

### **Economic Underpinnings of Slavery**

The Southern economy, particularly its cotton production, relied heavily on enslaved labor. The invention of the cotton gin had made cotton cultivation incredibly profitable, but this profitability was contingent on a constant supply of cheap, forced labor. As the United States expanded westward, the

question of whether new territories would permit slavery became a recurring flashpoint. Southern states feared that limiting the expansion of slavery would eventually lead to its demise, thereby crippling their economy and undermining their way of life. This anxiety fueled their deep-seated commitment to protecting and perpetuating the institution of slavery.

### **Moral and Social Arguments for Slavery**

Beyond economics, powerful moral and social justifications for slavery emerged in the South. Proponents argued that slavery was a benevolent institution that civilized Africans, provided them with religious instruction, and offered them a stable existence compared to the perceived chaos of free labor in the North. This ideological defense, however, masked the brutal realities of enslavement, including family separation, violence, and the denial of basic human rights. The "peculiar institution," as it was often euphemized, became a cornerstone of Southern identity and a point of fierce ideological defense against Northern criticism.

### **The Threat of Abolition**

While complete abolition was not the immediate goal of all Northern abolitionists, the growing anti-slavery movement and the election of Abraham Lincoln, a Republican whose platform opposed the expansion of slavery, were perceived as an existential threat by the South. Southern leaders viewed Lincoln's election as a clear signal that their way of life, and by extension, slavery, was under direct assault. This fear, amplified by years of political maneuvering and compromise

failures, pushed many Southern states towards the drastic measure of secession.

## **Beyond Slavery: Examining Intertwined Factors**

While slavery was the undeniable lynchpin, other interconnected factors contributed to the growing sectional divide and the eventual secession of Southern states. A thorough DBQ analysis would necessitate exploring these nuances and their relationship to the central issue of slavery.

### **States' Rights vs. Federal Power**

The debate over states' rights was a long-standing one in American history, but it became inextricably linked with the defense of slavery. Southern states championed the doctrine of states' rights, asserting their autonomy from federal interference, particularly on issues concerning slavery. They believed that individual states should have the ultimate authority to decide on matters within their borders, including the legality of slavery. Northerners, conversely, tended to emphasize the supremacy of federal law and the need for a strong national government. This ideological clash over the balance of power between the federal government and individual states provided a political framework for the secessionist argument, though it was largely motivated by the desire to protect slavery.

## **Economic Disparities and Tariffs**

Economic differences between the agrarian South and the more industrialized North also played a role. Southern states often resented federal tariffs, which they believed unfairly benefited Northern industries at the expense of Southern consumers and producers. These tariffs, designed to protect nascent American industries, were seen by the South as an infringement on their economic freedom and a symptom of Northern dominance. While economic grievances existed, it's crucial to note that these were often framed within the context of protecting an economy fundamentally reliant on enslaved labor, thus reinforcing the primacy of slavery.

## **Political Power and Representation**

The balance of political power in Congress was another source of contention. As the nation expanded, the admission of new states – whether free or slave – had a direct impact on the representation of both sections in the Senate. Southern states worried about losing their influence and political leverage as the North's population grew and more free states were admitted. The Compromise of 1850 and the Kansas-Nebraska Act were attempts to navigate these shifting power dynamics, but they ultimately failed to quell the rising tide of sectional animosity. The election of a president from a party perceived as anti-slavery (Lincoln) was the final straw, demonstrating to Southern states that their political power was significantly diminished and their interests, particularly regarding slavery, were no longer adequately represented in the Union.

# **The Crystallization of Secession: Key Events and Triggers**

While underlying tensions simmered for decades, specific events served as catalysts, pushing Southern states to act on their secessionist sentiments. A DBQ essay would likely scrutinize these pivotal moments.

## **The Dred Scott Decision (1857)**

The Supreme Court's ruling in the *Dred Scott v. Sandford* case was a watershed moment. The court declared that African Americans, whether enslaved or free, were not citizens and therefore had no standing to sue in federal court. More significantly, it ruled that Congress had no power to prohibit slavery in the territories, effectively nullifying the Missouri Compromise. This decision was hailed in the South as a vindication of their position on slavery and a blow to the anti-slavery movement. For many in the North, it was an outrage, further fueling their resolve to resist the expansion of slavery. The *Dred Scott* decision exacerbated sectional tensions to an unprecedented degree.

## **John Brown's Raid on Harpers Ferry (1859)**

John Brown's attempt to incite a slave rebellion at Harpers Ferry, Virginia, sent shockwaves through the South. Although the raid was ultimately unsuccessful, it was perceived by Southern whites as a direct act of aggression by Northerners, confirming their worst fears of Northern interference and a potential slave uprising. Brown became a martyr in the North

for some, while in the South, he was viewed as a dangerous fanatic, solidifying the image of the North as a threat to their safety and social order.

### **The Election of Abraham Lincoln (1860)**

The election of Abraham Lincoln in November 1860 proved to be the immediate trigger for secession. Lincoln's Republican Party platform explicitly opposed the expansion of slavery into new territories. Although Lincoln had pledged not to interfere with slavery where it already existed, his election was seen by Southern states as an unmistakable signal that their political power was waning and that the federal government was becoming increasingly hostile to their interests. Within weeks of Lincoln's victory, South Carolina seceded, followed by other Southern states, forming the Confederate States of America.

## **Conclusion: A Multifaceted and Inextricably Linked Causality**

In conclusion, a comprehensive understanding of what caused secession, as would be demonstrated in a well-crafted DBQ answer, reveals a complex interplay of factors, all of which were ultimately intertwined with the institution of slavery. While states' rights, economic disparities, and political representation were significant, they served as the conduits through which the fundamental conflict over slavery was expressed and amplified. The Southern states seceded not simply to defend abstract principles of states' rights, but to preserve a socioeconomic system built upon the enslavement of millions. The persistent fear of abolition, the economic

imperatives tied to enslaved labor, and the perceived existential threat posed by an increasingly anti-slavery North propelled them towards a decision that would plunge the nation into its bloodiest conflict. Analyzing the documents within a DBQ framework allows for a nuanced understanding of these interwoven causes, highlighting the central and unavoidable role of slavery in the unraveling of the American Union.

| 1  | Beyond slavery, what were other significant underlying causes that pushed Southern states to secede? | While slavery was the primary driver, other key factors included economic disparities (the South's agrarian economy versus the North's industrialization), states' rights debates (Southern emphasis on state sovereignty vs. federal power), and political polarization over westward expansion and the balance of power between free and slave states. |
| 2  | How did the election of Abraham Lincoln in 1860 directly trigger secession?                          | Lincoln's election, without a single Southern electoral vote, was perceived by many Southerners as a direct threat to their way of life and the institution of slavery. They feared his Republican party, which opposed the expansion of slavery, would eventually seek to abolish it entirely, thus prompting the first wave of secession.              |

|   |                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                   |
|---|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3 | What role did the concept of 'states' rights' play in the arguments for secession?                | Southern states invoked 'states' rights' to justify secession, arguing that individual states had the sovereign right to leave the Union if they believed their rights, particularly the right to own slaves, were being infringed upon by the federal government.                                                                                                                                |
| 4 | Were there internal divisions within the South regarding secession, or was it a unified movement? | While the Confederacy presented a united front, there were internal divisions. Some Southerners, particularly in border states or those with fewer enslaved people, opposed secession, fearing economic ruin or civil war. However, pro-slavery interests and the perceived threat to their social and economic order ultimately dominated political discourse.                                   |
| 5 | How did the Missouri Compromise and other antebellum compromises fail to prevent secession?       | These compromises attempted to balance power and appease both North and South regarding slavery's expansion. However, they ultimately proved temporary solutions. Growing abolitionist sentiment in the North and increasing Southern defensiveness over slavery, especially after events like the Dred Scott decision, made lasting compromise impossible, pushing the nation towards secession. |
